MESSAGE

"

As the Chancellor of Sharda University, I have both the opportunity to provide forward-looking leadership and to ensure that Sharda becomes a model of excellence in education for the country in the years to come.

If I had to state what differentiates Sharda University, I would without a doubt say that it is how we bring together incredibly diverse groups of students & faculty from across the world to discover a new way of learning. Moreover, Sharda gleans great advantage from its valuable industry network, which equips our students with essential knowledge and skills to excel in today's highly competitive world.

Although we offer over 130+ programmes in a variety of academic disciplines, our goal is your success. All our programmes focus on professional fields with strong current and future prospects to provide a degree that works for you. And, we surround you with a supportive and helpful academic community to encourage your personal growth and success.

I welcome you to be a part of this amazing experience!

Shri Pradeep Kumar Gupta has revamped the way education is imparted in educational institutions across India. He has also established Sharda Hospital in 2005 to provide hi-tech medical care at affordable cost to everyone. Going beyond boundaries, Sharda University established its first overseas campus at Andijan, Uzbekistan.

Shri Gupta is one of the founders of Education Promotion Society for India (EPSI) and also its past President. The then Hon'ble President of India nominated him on the Board of Governors of National Institute of Fashion Technology.

Distinguished awards conferred on Mr. P.K. Gupta
- 'Udyog Ratna' award
- 'Uttar Pradesh Ratna' award
- 'Gaurav Shri' award for entrepreneurship from the Alumni Association of Agra University
- Best Educationist award from the Federation of Educational Publisher in India

MESSAGE

"

When you come to Sharda, you are choosing a university that has been raising the bar of excellence in education since 2009. Behind this success was the experience of almost a decade in managing a large conglomerate of education institutions with infrastructure and education delivery processes benchmarked with the best.

The experiential education that our graduates have received while at Sharda has empowered them to solve real-world challenges. Whether through joining the workforce, continuing on with further studies, launching an entrepreneurial venture, or forging a different path, Sharda's graduates have brought their 'Think and Do' spirit out into the world.

With a reputation of being India's only global university, our passion for the areas of expertise we operate in and our cordial relationship with industry, you can be sure that Sharda will help you find your future.

An investment in higher education is a life-changing decision that will affect your career growth. Whatever programme you choose, we will support you with the very best academic staff and state-of-the-art facilities.

Shri Y.K. Gupta is a renowned educationist, social leader and a visionary industrialist who has traversed a tough road to the position he holds in Sharda University.

Shri Y.K. Gupta has put immense efforts to do pioneering work for his hometown, the city of Taj Mahal. He groomed Agra as a centre of excellence in technical education and provided the students better learning opportunities without any boundaries.

SHARDA UNIVERSITY, AGRA

Agra for the world means the city of Taj Mahal but for Indians, Agra holds significant importance in Hindu mythology and religious traditions. While Mathura is associated with Lord Krishna's birth, Agra and its surrounding areas are also part of the Braj region where Lord Krishna spent his childhood.

Agra has been a beacon of learning and knowledge dissemination for centuries. The city's educational journey witnessed a transformative phase in the last two centuries with the establishment of notable institutions. Agra College, founded in 1823, and St. John's College, founded in 1850, have been instrumental in shaping Agra's educational landscape. These institutions provided quality education and fostered intellectual growth making Agra a hub for academic excellence in the region.

The founders of Sharda Group, with their deep-rooted connection to Agra, embarked on a mission in 1996 to rejuvenate the city's reputation as a centre of educational excellence. Through the establishment of high-quality institutions in Agra and Mathura, they have successfully created new centres of excellence in education, research, and training.

In 2009, Sharda University was established in Greater Noida, offering 130+ globally recognised programmes. Going global, Sharda Group established the first offshore campus of Sharda University in Uzbekistan in the Andijan region in 2019.

Carrying forward the rich legacy of world-class education, Sharda Group has now established Sharda University Agra which has been approved by the State Govt through an act of the State Legislature of Uttar Pradesh (12 of 2019). Sharda University Agra is envisioned to make Agra the global hot spot for learning, research, innovation, and entrepreneurship.

SHARDA WORLD SCHOOL, AGRA

MUCH **MORE** THAN A SCHOOL

Envisioned to become one of India's leading schools, Sharda World School's unique blended approach (values & sanskars + modern teaching) provides 21st century skills for the future change makers. Our **5-tier** Learning Process

Applied Learning

By implementing applied learning in the classroom, students develop practical skills, critical thinking abilities, & problem-solving capabilities that are essential for success in academic, professional, & personal contexts. Applied learning also fosters student engagement, motivation, & lifelong learning habits. The Apple Lab at Sharda University puts learning into practice in a classroom environment.

Project Based Learning

Project-based learning (PBL) is an instructional approach that engages students in hands-on, inquiry-based projects to explore real-world problems and challenges. The High-end AI lab at Sharda University provides researchers and students with the resources, infrastructure, and support needed to work on various projects and push the boundaries of AI innovation.

Product Based Learning

Product-based learning is a powerful approach that engages students in hands-on, practical activities, fostering a deep understanding of concepts and skills. Students are encouraged to brainstorm and select products they are interested in designing and building. These could range from simple gadgets and toys to more complex machines and devices.

Research Based Learning

By implementing research-based learning in the classroom, students become active participants in their learning process, develop critical thinking and inquiry skills, and gain a deeper understanding of academic content. An example of this is High-end research on virus characterization to understand the structure, behavior, and interactions of viruses at a molecular level.

Problem Based Learning

Problem-based learning (PBL) is an instructional approach that encourages students to engage with complex, real-world problems to develop critical thinking, problem-solving skills, and subject knowledge. Students are guided to formulate questions related to the problem, which will drive their inquiry and research process. Recently Sharda University students identified a problem & designed a drone for Green Belt monitoring.

Faculty with Exposure of most Prestigious Institutions Across the Globe

Sharda University prides itself on the quality of its teaching, which is reflected in our numerous awards for education excellence. The distinguished faculty have been sourced from prestigious global universities like Stanford University, Harvard University, Cornell University, University of Alberta, John Hopkins University, Ulster University, Stuttgart University among others. The faculty had the privilege of pursuing path-breaking research and teaching at these universities.

In addition to the expertise of our academic teams, students at the University also get the chance to learn from visiting professionals who are well known and respected in their industries and professions. Each year Sharda University welcomes a range of guest speakers who deliver inspirational talks in their respective fields as part of our Guest Lecture series. These free events give students the chance to hear from experts outside of their subject areas and broaden their horizons.

Fulfilling Career Dreams Through Sharda Scholarship

UPTO 100% SCHOLARSHIP

7515 students studying with Scholarship and Freeship worth Rs. 37.15 crore in 2023-24

Sharda University's focus is to help those who are brilliant in academics but don't have the means. Sharda scholarships are specifically designed to suit personal needs of every student, allowing them to explore their passion and contribute in building a knowledge empowered India.

Most of the scholarships are merit based. However, support is also available to students belonging to economically weaker sections of the society. Scholarship is granted on annual basis and continuation in second and further years of the programme is subject to scholarship policy.
